

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application. Please cancel Claims 1 and 2, without prejudice or disclaimer.

Listing of Claims:

Claims 1 and 2 – (canceled)

3. (currently amended) An electric cylinder for actuating a door lock, ~~characterized in the~~ that comprising a motor wherein a tip of a motor shaft is contacted with the surface of a rotary dish plate and said motor shaft is displaced by the operation of said motor to ~~associate~~ engage said rotary dish plate with a disc; said tailpiece ~~associated with~~ connected to said rotary dish plate is arranged in parallel to said motor, so that cables ~~drawn out from~~ connected to said motor do not hinder [[the]] turning movement of said rotary dish plate; a cylinder case in which said disc, said rotary dish plate, said tailpiece and a stationary can are disposed in a linear relation and all electric cylinder parts are accommodated ~~in the case;~~ therein and in which said disc is put displaceably with a spring ~~in the case, the~~ ; wherein an electrode of said motor is changed to extend and contract said motor shaft, and the tailpiece is ~~associated with the operation of the~~ displaced by extension and contraction of said motor shaft to actuate a deadbolt.

4. (Currently Amended) An electric cylinder for actuating a door lock according to either ~~from claim 1 to claim 3,~~ wherein either one of the ~~associated~~ engaged locking parts of ~~said rotary~~

~~can or~~ said rotary dish plate ~~[[and]]~~ or said disc is provided with an inclined angle.

5. (Currently Amended) An electric cylinder door lock according to ~~either one of from~~
~~claim 1 to~~ claim 4, wherein said electric cylinder is attached to the existing door lock by
clamping bolts to provide a cylinder door without a keyhole.
